

corporate profile

Info Tech Accounting Pty Ltd was formed in 1999 through the merger of three highly experienced consulting companies. We are uniquely positioned in the Australian information technology and business software market due to our recognised and continuously demonstrated experience in the provision of total business solutions for our clients.

PEOPLE AND PARTNERSHIPS

We have developed a professional services team including Chartered Accountants and CPAs from both Australia and New Zealand. Our team are also fully trained in industry recognised accreditations and specialise in a full range of business applications, client infrastructure, managed services and risk management.

We have developed long term partnerships with the world's leading IT providers.

*"the right information...to the right people...at the right time
...anywhere, anytime, everytime."*

OUR BUSINESS, YOUR SUCCESS

Over the years, we have found that the success of an implementation is greatly improved by planning and effective management. We have developed a proven structured methodology that lays a strong system foundation and ensures an efficiently executed project.

SECURE THE FUTURE

We understand that our service obligation does not end with the completion of a project or implementation. Our After Sales support helps protect your investment.

OUR CLIENTS INCLUDE:

One of the largest & longest standing Sage Accpac business partners in Melbourne.

CUSTOMER EXPERIENCE

"We wanted a partnership with a company that not only had the product, but was also progressive and had the infrastructure already in place to provide the support we need. Sage ACCPAC had all of these things."

"We've been very happy with Info Tech, we find them fair and honest, know the products very well, and are very patient."

Paul Johnson - Verbatim Australia

"Info Tech are one of our leading partners in Victoria who have extensive experience in all our products across many industry sectors."

Sally Creber - Sage Australia

WHY TALK TO US?

Because we can unlock the potential of your present infrastructure.

We ensure that your investment in IT moving forward not only fulfills that business need, but pays for itself over and over again.
